Satisfying All Modern Office Communication Needs

Meet the challenges you face with a smart and powerful partner by your side. The Lanier™ MP C2800/MP C3300 unite the ease of use and productivity of a black and white device with outstanding colour capabilities. Keep pace with today's growing demands and only go for the best in office communication.

Impress in Colour

Boost your business image with high impact colour documents. Colour makes a lasting impression! On top of that, your documents become more attractive and readable. The Lanier™ MP C2800/MP C3300 make sure you obtain expert results with impeccable detail and sharp images. For special applications requiring thick paper such as menu cards and cover pages, paper of up to 256 g/m² can be handled via all paper trays.

Continuous Operation

With a maximum paper capacity of 4,400 sheets, replenishments are down to an absolute minimum. The system even switches to the next tray with the same paper when the one in use runs out. You can continue your work without interruptions.

Finishing Experts

Why resort to expensive outsourcing when you can create professionally finished documents in house? The Lanier™ MP C2800/MP C3300 offer an entire range of possibilities to meet your needs: staple, punch and collate with the 500-sheet and 1,000-sheet finisher or create attractive sales, training and presentation material with the systems' booklet finisher.

Optional: Scan to USB/SD

Optimal Document Management

For streamlined document handling, all your print, copy, fax and scan data can be stored and managed. Using Web Image Monitor you can retrieve stored data, view files and re-organise, change or delete them through a web browser anywhere, anytime.

Make your Complex Tasks Easy

Designed to simplify your daily workflow, the Lanier™ MP C2800/MP C3300 allow you to create first class documents with the greatest ease. No technical expertise required! The advanced colour LCD touch panel offers you:

- the possibility to show only your most frequently used functions
- a preview functionality for optimum usability and improved accuracy
- a crystal clear screen that displays text and images as sharp as on your PC screen
- animated user guidance in case of irregularities

Intelligent Faxing

With a wealth of smart capabilities at your disposal, you can turn your fax communications into a very smooth running and efficient workflow:

- automatically distribute incoming faxes to e-mail or folder
- forward faxes to a single person or an entire workgroup for optimum efficiency
- reduce costs and optimise efficiency by using the Internet for long distance faxing

Inbound fax messages automatically go to the right person while you omit the distribution of printed faxes and save costs!

Our Earth, Our Tomorrow

Like all Lanier products, the MP C2800/MP C3300 reflect Lanier's commitment to the environment with the usage of toxic free materials*, limited ozone & noise emission and low energy toner production.

* In compliance with EU RoHS directive (RoHS: Restriction of Hazardous Substances, effective from July 2006).

Power up your Office with the Latest Technologies

To go that extra mile you need smart solutions that efficiently handle your every day tasks. With the Lanier™MP C2800/MP C3300, you can get the job done on time, any time. Increase your productivity, easily share information and optimise security. Should your business needs change, your multifunctional device simply grows with you.

Top Multifunctional Performers

Whether you are looking for a digital copy/print/scan solution or a full blown multitasker with fax and finishing capabilities, the Lanier™MP C2800/MP C3300 can be customised to suit your specific needs. In fact, you can process all your documents using one compact multifunctional device: cost efficient and space saving! The system warms up in a mere 27 seconds and your first black and white job is ready in 5.0 seconds*. Colour prints and copies are on your desk just as fast as black and white documents: at 33 pages per minute for the MP C3300 (28 ppm for the Lanier™MP C2800) your productivity is never compromised!

* Full colour: 8.0 seconds

Efficient Distribution

Digitally organise, edit and distribute information to save time and costs. Instead of filling archive cabinets, you can easily:

- digitise documents and store them on the document server
- share a document by scanning it to the addressee's e-mail address or a specific folder
- avoid network overloads and prevent huge e-mail inboxes by sending an e-mail containing a URL address

Advanced Printing

The confidential documents you print should stay confidential. With the Lanier™MP C2800/MP C3300 they remain that way: the system keeps your document until you release it with your password. Print jobs you send during the day can also be held in the digital paper tray. You simply release them at a convenient time. When printing multiple sets, you can avoid misprints by first printing a sample set and correcting it if necessary before the device processes the remaining sets. Should you choose the systems' Adobe® PostScript® 3™ option, you obtain PDF Direct Print, a handy tool to reduce network traffic and increase total productivity.

Safeguard Access & Information

Protect your business against possible security threats with the latest in authentication, temporary data overwriting and unauthorised copy prevention:

- advanced access limitation: Windows® authentication & colour usage restriction
- prevention of industrial spying & information leaks: Data Overwrite Security Unit
- watermark protection to rule out unauthorised copying

Distributing scanned documents is easy: you can store them on the device's Document Server, send them to any e-mail address in the world or directly to a specific folder in the network.
